

UNIVERSITY AFFILIATIONS AND GRADUATE CREDITS TOWARDS DOCTORAL DEGREES

NAIOMT course hours are eligible for credits in certain post professional doctoral programs. The credits can be obtained from completing NAIOMT core courses with examinations and from structured fellowship or mentored clinical hours.

NAIOMT faculty associates with many universities, and we are proud to have been affiliated with the following advanced degrees since the mid 1990s.

- DSc** **Andrews University, Berrien Springs, Michigan**
- t-DPT** **Pacific University, Hillsboro, Oregon**
- t-DPT, PhD** **Texas Women's University, Dallas and Houston, Texas**

Andrews University, Berrien Springs, Michigan

Andrews University and NAIOMT have partnered to offer a **DScPT** Program in orthopaedic manual physical therapy. This degree represents one of the most clinically relevant programs in the United States! The program utilizes a combination of short course format, independent study and distance.

Applicants are also able to receive credit for previous achievements through our competency review process. Graduates will leave the program certified as an orthopaedic manual therapist and will have the credentials to market themselves as one of the most respected orthopaedic specialists in their area!

Pacific University, Hillsboro, Oregon*

Pacific University recognizes that fellowship education provides an optimal environment for integrating academic and clinical knowledge. Students who have successfully completed NAIOMT core courses with examinations and/or clinical fellowship or mentored training can apply their work toward the required 32 credit hours for a **transitional DPT**. Only administrative fees are charged for the transfer of credits. The program utilizes a combination of the weekend course format, independent study and distance learning.

* As of 2008, the transitional DPT Program at Pacific University is currently not accepting new applicants. Contact the associate coordinator of transitional DPT program for more information: 1 503 352 7257 www.pacificu.edu/pt/tdpt/index.cfm

Texas Women's University, Dallas and Houston, Texas

Texas Women's University campuses at Dallas and Houston offer post-professional degrees:

tDPT (24 credit. hours beyond a master's, 18 core + 6 elective)

PhD (60 credit hours beyond a master's).

TWU also offers a **Certificate in Orthopedic Manual Therapy**,

The School of Physical Therapy Post-Professional Admissions Committee will review the application prior to acceptance into the degree program. The 12 credit hours of course work taken as a part of the TWU-OMT certificate program may be counted toward a graduate degree if approved by the School of Physical Therapy and the Graduate Dean. NAIOMT classes are therefore typically accepted as elective credits to both degrees.
